AGRICULTURAL FIELDMAN'S REPORT TO COUNCIL

REPORT NO. AF-92-07

DATE: 92 12 17

SUBJECT: COMPUTER QUOTATIONS

RECOMMENDATION: That administration purchase two computers from Computer Exchange Ltd for \$1,678.83 each.

REPORT: Requests for quotations were sent to 25 companies to ascertain prices on two computers, one for the Senior Secretary (replacement of one which is malfunctioning) and one for the Receptionist to allow for computerization of road permits and word processing. Eight companies responded with prices for fifteen different systems all of which met the minimum specifications requested in the original documents. A comparison of the systems was carried out to determine the best system for our proposed and future applications.

The computer selected although not the lowest quote will function best in the environments that we wish. The additional power and memory will suit a windows application to support the use of a database program and word processing simultaneously. This increased flexibility should result in better and faster response to public enquiries and increase the availability of information with lower recall time.

The reasons for not selecting the two lower quotes is the better display capabilities and the faster processing speed of the recommended machine. The selected machine can also be incorporated into a network system if we upgrade in the future.
