

MEMO
PLANNING AND DEVELOPMENT DEPARTMENT

DATE:	April 14, 2020	STAFF NAME:	Kathleen Sterling
POLICY NAME:	Oil and Gas Lease Rate Sheet	POLICY #:	PD-19

Policy Information and Location

The oil and gas industry is a prominent economic driver in Brazeau County with infrastructure ranging from batteries to pipelines located throughout the municipality. Several of the Brazeau County owned parcels have oil and gas facilities on them. Council and Administration have recognized the need to have a policy that establishes rates for surface leases on these lands.

This policy includes information about established rates for:

- Right of Entry Access (Entry Fee);
- New Lease Land Value;
- Adverse Effect; and
- Loss of Use.

The Oil and Gas Lease Rate Sheet Policy – PD-19 was updated and signed on April 2, 2019.

Due to the confidential nature of the information included in the policy, it was decided by the Chief Administrative Officer that the policy would be kept in two locations with restricted access.

If you require a copy of the Oil and Gas Lease Rate Sheet Policy – PD-19, please contact either the Executive Assistant or the Senior Planner(s) in the Planning and Development Department with your request.
