

**Policy Name**

Partnering

**Policy Number**

ADM - 3

**Policy Statement**

During the course of necessary business, the County may find it prudent or necessary to consider partnering on infrastructure projects with private industry or individual developers.

**Policy**

During the normal growth of the community, the County may not always be in a position to supply funds for an expansion or improvement of infrastructure when required by expansion needs. Occasions may arise when the possibility of partnering with private industry or individuals may become prudent whether as a requirement by Council or as an incentive offered by private industry or individuals to speed up projects that otherwise would have taken a lesser priority due to the lack of funding through normal channels of the budget and accumulative time.

In these situations Council will review these proposals on an individual basis and decide whether there is merit, opportunity, and an overall requirement for such partnering projects.
